**Fresh Meat Protein:** Ferrets are strict carnivores; they require diets based on highly digestible animal (meat) protein with little to no carbohydrates.

**Marshall's meat protein**

**Other's meat protein**

**No Sugars:** Ferrets should not eat sugary cereal, peanut butter, grains, rice, carbohydrates, raisins, bananas, other fruits, vegetables, dairy products, chocolate, other sweets, or any food with sugar.

**Natural Fat:** Marshall Premium Ferret Diet has no added fat on the pellet surface for consistent nutritional value throughout the pellet.
